(I) 1. INTRODUCTION

1.1 We understand that the privacy of your personal details, and the security of your transactions with us, is of paramount importance to you. Plesi has therefore adopted data protection policies with respect to your privacy and security. Plesi's Privacy Policy sets out the rules we will abide by when dealing with personal information we collect from individuals in the course of our business. We have based our policy upon the Internet Industry of Australia's (IIA) draft Privacy Code of Practice, which adopts internationally recognised Privacy protection standards. The IIA Code also covers the requirements of the new Australian Privacy legislation.

1.2 We may make alterations or additions to this policy from time to time. Should we do so, we will update the policy on our web site. We require that all our customers agree to abide by our Privacy policy as part of our terms of trade. This policy also applies to users of our web site who are not customers of Plesi.

1.3 Please note that we cannot and do not assume any responsibility for the privacy or security practices of any other web sites which you may be able to access through our site, or for our customers' level of compliance with our code.

2.1 Information we require to supply our services.

- When you first sign up or contract with Plesi for our services, or when you make an inquiry about our services, we request information such as your name, address, telephone number, domain name, email details of your primary and secondary contacts, credit card details (if you are paying online). We may also ask for your age and gender.
- We may also monitor and/or record telephone conversations with you from time to time in order to train staff and to improve our service to you, with your consent.

2.2 Non personally identifying information.

- In addition to the information you specifically provide above, Plesi operates statistics gathering software on its web site to collect information about the number of visitors coming to the site. No identifying information is collected by this software. The software records the IP address of the visitor or the domain only. We use this information to improve our own technical structure and performance, and to determine which areas of our web site are most popular.

2.3 Other demographic information.

If you respond voluntarily to our surveys or other interactive communications, we collect the responses and use the information to improve the quality and range of Plesi's products and services.

2.4 Personal information stored on a web site hosted by Plesi.

Plesi will have personal information stored on our servers due to the fact that we host web sites of other organisations. Any information that is submitted to or collected by these organisations will be physically located on a Plesi server. This information, whether voluntarily provided or not, will not be used or released by Plesi in any manner, and it will be kept strictly confidential, unless we are required to release the information by law.

2.5 Google Analytics Features

The Google Analytics features Plesi has implemented based on Display Advertising include Remarketing, Google Display Network Impression Reporting, the DoubleClick Campaign Manager integration and Google Analytics Demographics and Interest Reporting.

Visitors can opt-out of Google Analytics for Display Advertising and customize Google Display Network ads using the [Ads Settings](#).

Plesi will not facilitate the merging of personally-identifiable information with non-personally identifiable information previously collected from Display Advertising features that is based on the DoubleClick cookie unless Plesi have robust notice of, and the user's prior affirmative (i.e., opt-in) consent to, that merger.

Google encourages users to visit [Google Analytics opt-out browser add-on](#).

Plesi may use Remarketing with Google Analytics to advertise online.

A cookie is a string of information that a website stores on a visitor's computer, and that the visitor's browser provides to the website each time the visitor returns. Plesi's visitors who do not wish to have cookies placed on their computers should set their browsers to refuse cookies before using Plesi's websites, with the drawback that certain features of Plesi's websites may not function properly without the aid of cookies.

2.7 Google Display Network Impression Reporting / DoubleClick Campaign Manager

Plesi uses cookies to help identify and track visitors, their usage of the Plesi website, and their website access preferences. Plesi and third-party vendors, including Google, use first-party cookies (such as the Google Analytics cookies) and third-party cookies (such as the DoubleClick cookie) together to report how your ad impressions, other uses of ad services, and interactions with these ad impressions and ad services are related to visits to your site.
